

Description

Greed is the professional cleaner developed by Errecom to ensure the thorough cleaning and hygiene of refrigerated environments such as cold storage rooms and their drains, refrigerators, freezers, etc.

Thanks to its powerful formulation, Greed completely and quickly removes food residues, grease, encrustations and mould from surfaces and, by creating a protective film, slows down their growth. Once emptied from the system, the product removes any residues from the drain.

Greed is formulated only with tasteless raw materials suitable for indirect food contact, so any residual product is non-hazardous. However, it is recommended to always rinse surfaces after use. HACCP compliant. NSF registered (A5).

Features

- Removes residues of food, grease, encrustations and mould.
- Prevents the growth of new contaminants on surfaces.
- Formulated with raw materials that comply with Regulation (EC) 1935/2004 – MOCA.
- Powerful and quick cleaning action.
- Ready to use.
- HACCP compliant.
- NSF registered (A5).

Instructions

1. Apply Greed on the surface to be treated.
2. Wait for 5 minutes.
3. Rinse thoroughly with water.
4. If the system has a drain, empty the system so that the product cleans it of any residue.
5. When dealing with stubborn dirt, repeat the procedure.

Physical and chemical properties

Property	Value
Aspect	Clear liquid
Colour	Colourless
Odour	Characteristic
Relative Density	1,03 ± 0,005 g/ml (at T = 20°C)
pH	2 ± 1

Cleaner composition according to Reg. (EC) No 648/2004

Ingredients: Aqua; Glycolic Acid; Propylene Glycol; Alcohol Denat; Isopropyl alcohol; < 5 % Anionic surfactants.

Categorisation and labelling

This technical specification is only applicable when it comes with the current Safety Data Sheet. In accordance with legal requirements, only the Safety Data Sheet contains current safety information. The MSDS is available on request.

Safety instructions

Avoid contact with skin and eyes. Avoid breathing vapours and mist.

Do not use empty containers before they have been cleaned.

Before pouring it into a container, make sure that it has been cleaned properly from any incompatible materials.

Storage instructions

Store the product between +0°C/+32°F and +40°C/+104°F.

Store in a cool and well ventilated place.

Keep away from direct sunlight.

Keep away from food, beverage and animal feed.

Transport conditions

This product is not regulated for transport according to ADR/RID, IMDG, ICAO/IATA.

Shelf life

7 years from the production date.
